

Multi Webcam Viewer Documentation

The Multiwebcam viewer is a very quick and easy way to simultaneously visualize up to 4 webcams attached to your computer. This software is incredibly useful for telepresence applications with the Choitek Megamark Robot.

User Interface

[Webcam Select]

On the upper left hand corner of every webcam view, there is an dropdown menu that allows you to select an attached webcam for display.

[Side Cameras]

On the upper right corner of the main view, click on the `Side Cameras` button to toggle displaying the 3 additional camera views on the right.

[Scifi HUD]

In the upper middle of the main view, click on the `Scifi HUD` button to toggle a super cool science fiction style overlay on the main camera view.

Super cool science fiction style overlay.
